Yarmouth Town

<u>CHORUS</u>
```
G                         C
Won't you come down, won't you come down,
G                           D       G
Won't you come down to Yarmouth town.
```

```
G                         Em
In Yarmouth town there lived a man.
     C           G       Am       D
He had a little tavern by the strand.
          G               Em
And the landlord had a daughter fair.
C             G           Am        D
Pretty little thing with golden hair.
```

```
Chorus
G                             Em
One night, there came a sailor man,
     C           G         Am         D
He asked the daughter for her hand.
        G               Em
Well, I won't marry you she said.
   C             G         Am           D
I have all I want with-out being wed,
     G                      Em
But if with me you'd like to linger,
        C         G         Am          D
I'll tie some string a-round my finger.
G                 Em
As you walk by, pull on my string,
     C           G             Am          D
And I'll come down and let you right in. Chorus
                                              X2
```

```
G                                      Em
Well, the very next day at closing time,
     C       G      Am          D
The sailor man goes off to the strand,
     G                       Em
And as he walks by pulls on that string
      C         G        Am          D
And she came down and let him right in.
       G                        Em
Well he's never seen such a sight before;
C                                      G        D  G
A string around her finger was all she wo-re.

Chorus X2

G                              Em
So all you men who to Yarmouth go,
       C          G                Am          D
If ya see those girls with their hair hung low,
G                    Em
All ya gotta do is pull their strings
     C          G            Am          D
And they'll come down and let you right in.

Chorus X4
```
